

Claremont PD dispensary moratorium

Our medical marijuana dispensary just moved out of town after the court issued an injunction for him to close down. The City cited had him for operating without a business license. Our City is operating under a moratorium on dispensaries, which was challenged in court and the City prevailed. While the dispensary was in operation, the dispensary was the victim of a burglary in which a number of marijuana plants were stolen. A business tenant next door to the dispensary also complained about the odor coming from the dispensary.
