

## Comparative Analysis of Digital Image/Audio Management Systems.

	LYNX	VERIPIC	LINEAR SYSTEMS
Image Authentication	Authenticates image based on process of saving image to camera memory card	Authenticates image using proprietary knowledge of specific camera software. Photos from some cameras cannot be authenticated	Authenticates image by analyzing the digital format of the image and confirming the image has not been modified
Accepts/Authenticates Photos From Any Camera	Yes	No. System will accept any photo, but will only authenticate photos from cameras listed in system	Yes
Accepts Digital Photo/Video/Audio Evidence	Yes, video/audio included in basic license	Yes, audio and video 1/5 floating license add. \$2,750	Yes, audio and video modules are \$250 ea, per computer installed.
Intuitive Digital Evidence Processing	Good	Good	Fair
Imports RAW Files	Yes	Yes	Yes
Chain of Custody Log	Yes	Yes	Yes
Viewer Access Control	Yes	Yes	Yes
Digital Evidence Search Engine	Yes, customizable criteria	Yes, customizable criteria	Yes, customizable criteria
Digital Evidence Storage Format	Database	Database	File Format
Additional Features	Allows highlighting/circling/labeling of evidence within a photos	Software allows basic photo enhancement. Calibration Module (1 to 1 photos) and Background Removal Module available \$750 ea, per lic.	No, copy of original photo has to be exported to Photoshop for highlighting, then imported as new photo.
Allows Creation of Slide Show to View Images	Yes, creates encrypted slide show that can be password protected and exported/ emailed	Yes, creates encrypted photo slide shows that can be exported/emailed	Yes, allows for the export of file containing copies of original photos
Web based Access	Yes, requires Webserver license \$5,000 + \$1,000 annual support	Yes, for limited access	Yes, with ImageServer. Unk cost
Licensing	License allows install on all networked computers w/1 concurrent user per license.	Utilizes floating license system. 1 lic allows install on 5 computers w/1 in use at a time. Requires Import Station License in addition to use license.	With ImageServer® no license required to view photos. License required for each download station.

Installation	Customer Installs w/phone support and project management	Customer Installs w/phone support and project management	On-site \$1,000 1st day, then \$800 per day (estimated 1 day required)
Training	Phone/On-Line 2 hrs \$600	On-Site \$1,000 per day. Follow-up training \$800 per	Webex Training 2 hrs \$399
Maintenance/Technical Support	1 yr \$2,800	1 yr \$4,661.76	ImageServer 1 yr \$3,660
