

Contract with another agency to provide partial field/patrol coverage on a daily basis?

Only one response to the request for information - that came from Sand City. They contracted with Monterey Co. S.O. for midnight coverage for a short period of time until their staffing levels got back to normal. We were unable to get anything going with an adjoining agency - cost was somewhat of a factor, but the biggest concern was from their P.O.A. who felt they would be taking on additional duties.
